

# PAR PAC

## MARINE PRODUCTS

The Marine Power ParPac is a Full Marine Base Engine, with a complete ignition and fuel system. Built only on GM Marine Engine Blocks, ParPacs are manufactured to the same exacting standards as Marine Power's complete engine packages. Furthermore, every ParPac carries a Limited 1 year warranty on both parts and labor.

Perhaps that's why more and more boat owners looking for an economical alternative are asking their dealers for Marine Power ParPacs.

Look over Marine Power's extensive line of hard working engines and high power features. You'll see why Marine Power is rapidly becoming a major force in the marine engine industry.....***The Force Behind the Fun.***

---

**STOP!** Before you buy, look for value. Shop and compare the differences between a base engine, a rebuilt engine and a brand new Marine Power ParPac.
