CUMMINS MERCURISER DIESELS

*FOR MORE INFORMATION ABOUT
MERCURISER INBOARD MODELS,
VISIT MERCURYMARINE.COM*

Our reputation for unsurpassed reliability, advanced technology and high performance stretches around the world. To see that in action, look no further than our gas and diesel inboards. We offer a complete range of applications, from Horizon gas inboards to innovative, power-packed Cummins MerCruiser Diesel products (visit cmdmarine.com). Inboards are designed for long life and a low-maintenance boating experience. That's why we use quality materials like ceramic and stainless steel in the exhaust system and feature closed-cooling, top-mounted starters and oil pans with better corrosion prevention, including three years of warranty with our Horizon packages. All MPI inboard models offer optional DTS to ensure peak efficiency and performance – and features like our exclusive Transmission Guardian deliver reliability like no other.

LOW-MAINTENANCE FEATURES

- Stainless steel exhaust system
- Dry-joint exhaust design
- Remote-mount oil filter
- Optional air-activated single-point water drain
- Extended 100/300-hour maintenance intervals

CLOSED-COOLING

Closed-cooling works just like your car by cooling the engine with a long-life glycol jacket. Unlike most other engines that are cooled with seawater, this dramatically reduces opportunities for corrosion to begin.

EXTENDED WARRANTY

Horizon models are covered by a three-year limited warranty. Boat brands from manufacturers that are Installation Quality Certified come standard with an
