

MULTIPOINT INJECTED (MPI) E N G I N E S

THE LATEST TECHNOLOGY:
PERFORMANCE MEETS LUXURY.

If you're interested in getting even more from your engine, then a MerCruiser MPI sterndrive is the answer. Loaded with the latest innovations from MerCruiser, our MPI engines provide more power than the carbureted model of the same engine size. Add in the benefits of SmartCraft® and Engine Guardian technologies, and you have a total package with top performance and protection. From dry-joint exhaust and stainless steel exhaust tips for corrosion prevention to custom-ground roller camshafts, it's in here so you can be out there.

EXCLUSIVE ENGINE GUARDIAN

Standard on all MerCruiser MPI engines with SmartCraft technology, Engine Guardian senses potential problems, helping to prevent engine damage due to overheating, low-oil or low-lube levels.

DIGITAL THROTTLE & SHIFT

Cableless operation eliminates helm maintenance and gives you instant throttle response.

87-OCTANE READY

All MerCruiser gasoline engines are designed to run on 87-octane fuel instead of expensive, hard-to-find high octane fuel.

DRIVE LUBE MONITOR

Engine-mounted drive lube monitor makes it easy to check or add drive lube from inside the boat.

4.3L MPI

5.0L MPI

350 MAG MPI

MX 6.2 MPI

496 MAG

496 MAG HO®

RELIABILITY

- ECM 555 fuel and ignition system with platinum-tipped spark plugs equals reliable starting
- Exclusive Engine Guardian protection system senses potential problems helping to prevent engine damage due to overheating, low-oil or low-lube levels.

PERFORMANCE

- MX 6.2 MPI features an exclusive long-stroke 4340 forged-steel crankshaft for superb big-boat power in a lightweight package
- Custom camshaft profiles for the 350 MAG MPI and MX 6.2 MPI improves low- to mid-range torque for better acceleration and towing heavy loads

EASY OWNERSHIP

- Easy oil drain system and convenient remote oil filter location make service a snap
- Easy water drain systems make sure you spend more time with your boat on the water
- Standard remote oil filter
